sadef
We reinforce our leading position in the sector with our new generation of high-tech Freeze-Dryer production lines. With our vision of becoming one of the world's leading facilities on a global scale, we continuously improve our infrastructure, which is fully integrated with IQF processing systems; thus, we ensure uninterrupted production with maximum efficiency.
With our high-tech production infrastructure and advanced coating lines, we produce chocolate-coated products on an industrial scale. Our simply structured setup ensures process stability and quality standardization, offering high flexibility and repeatable quality across different product forms.

Sadef Gıda's production facility in Aydın covers an area of 112,000 m², of which 60,000 m² is dedicated to the production of freeze-dried products.
Spanning an area of 30,000 m² and equipped with 10 Freeze-Dryer machines, the first phase earned the facility the title of 'World's Most Hygienic and Modern Food Production Facility'.
2026
The Sadef production facility is planned to be operational with a total of 22 freeze-drying machines by the end of 2026.
